SAN BERNARDINO COMMUNITY COLLEGE DISTRICT
BOARD POLICY

SUSTAINABILITY

As a member of the greater San Bernardino community, the San Bernardino Community College District plays a critical role in the educational and economic health of the region. As part of this responsibility, the District recognizes the importance of addressing sustainability in its daily operations to provide stewardship of the environment, as well as to provide students with the knowledge and skills to succeed in the green economy.

The District will provide a leadership role in sustainability through several means:

- Developing a District/College sustainability plan which concisely identifies the vision for sustainability, guiding principles and actions necessary to implement the plan.
- Actively engaging faculty, students and staff in preparation and implementation of the sustainability program.
- Building greater awareness of sustainability within the colleges and within the greater San Bernardino community.
- Working with other agencies on potential funding opportunities.
