Addendum # 1
RFP #2019-03  -  Loss Control & Safety Services
SAN BERNARDINO COMMUNITY COLLEGE DISTRICT
ANSWERS TO VENDOR QUESTIONS

Q1: I noticed that the pricing matrix for the Chemical Inventory and CERS Business plan is listed as 120 hours and 24 hours respectively.

This is the number of hours that SBCCD believes these activities should take to be completed. As indicated in the RFP document, the hours are an estimate and actual hours to complete these tasks may vary. The information provided in the RFP document should be used by the proposer to establish and propose an hourly rate.

Q2: This has both ergonomic evaluations and industrial hygiene in the proposal. Can we apply for the ergonomic assessments component?

Please refer to Section 4.2.1 Overview of Service in the RFP document. Vendors should apply for all categories in which they feel they can adequately provide services.

Q3: Is this a recurring contract? If so, who are the incumbents?

Yes, the contract for these services is recurring. Current services are being provided by Citadel Environmental Services, Inc.

Q4: Is there a page limit to the proposal?

No.
