BP 6307 Debt Issuance and Management

The Chancellor shall establish procedures to ensure the District is professionally managing its debt and fulfills its annual debt issuance reporting requirements to the California Debt and Advisory Commission.

This Debt Management Policy (the “Policy”) provides written guidelines for the issuance of indebtedness by the San Bernardino Community College District (the “District”) in satisfaction of the requirements of S.B. 1029, codified as part of Government Code Section 8855.

I

Purpose and Goals

This Policy provides a framework for debt management and capital planning by the District.

This Policy has been developed to meet the following goals:

1. Identifying the purposes for which the debt proceeds may be used.
2. Identifying the types of debt that may be issued.
3. Describing the relationship of the debt to, and integration with, the District’s capital improvement program or budget.
4. Establishing policy goals related to the District’s planning goals and objectives.
5. Implementing internal control procedures to ensure that the proceeds of the proposed debt issuance will be directed to the intended use upon completion of the issuance.

II

Purposes for Which Debt Proceeds May be Used

Section 2.01. Authority and Purposes of the Issuance of Debt

The laws of the State of California (the “State”) authorize the District to incur debt to make lease payments, contract debt, and issue bonds for school improvement projects. The District is authorized to contract debt to acquire, construct, reconstruct, rehabilitate, replace, improve, extend, enlarge, and equip such projects; to refund existing debt; or to provide for cash flow needs.

Section 2.02. State Law

Section 18 of Article XVI of the State Constitution contains the “debt limitation” formula applicable to the
District.

There are a number of State laws that govern the issuance of general obligation bonds ("GO Bonds") by community college districts. Sections 1(b)(2) (Proposition 46) and 1(b)(3) of Article XIII A (Proposition 39) of the State Constitution allow the District to issue GO Bonds. The statutory authority for issuing GO Bonds is contained in Education Code Section 15000 et seq. Additional provisions applicable only to Proposition 39 GO Bonds are contained in Education Code Section 15264 et seq. An alternative procedure for issuing GO Bonds is also available in Government Code Section 5306 et seq.

The statutory authority for issuing Tax and Revenue Anticipation Notes ("TRANs") is contained in Government Code Section 53850 et seq. Authority for lease financings is found in Education Code Section 17455 et seq. and additional authority is contained in Education Code Sections 17400 et seq., 17430 et seq. and 17450 et seq, and Government Code Section 4217.10 et seq. The District may also issue Mello-Roos bonds pursuant to Government Code Section 53311 et seq.

Section 2.03. Debt Issued to Finance Operating Costs

The District may deem it necessary to finance cash flow requirements under certain conditions. Such cash flow borrowing must be payable from taxes, income, revenue, cash receipts and other moneys attributable to the fiscal year in which the debt is issued.

General operating costs include, but are not limited to, those items normally funded in the District’s annual operating budget.

The District’s Chancellor or Vice Chancellor, Business Services, will review potential financing methods to determine which method is most prudent for the District. Potential financing sources include but are not limited to tax and revenue anticipation notes, temporary borrowing from the San Bernardino County Treasurer and Tax Collector, and temporary interfund borrowing.

III

Types of Debt That May be Issued

Section 3.01. Types of Debt Authorized to be Issued

A. Short-Term: The District may issue fixed-rate and/or variable rate short-term debt, which may include TRANs, when such instruments allow the District to meet its cash flow requirements. The District may also issue bond anticipation notes ("BANs") to provide interim financing for bond projects that will ultimately be paid from GO Bonds.

B. Long-Term: Debt issues may be used to finance essential capital facilities, projects and certain equipment where it is appropriate to spread the cost of the projects over more than one budget year. Long-term debt should not be used to fund District operations.

Long term debt in the form of GO Bonds may be issued under Article XIII A of the State Constitution, either under Proposition 46, which requires approval by at least a two-thirds (66.67%) majority of voters, or Proposition 39, which requires approval by at least 55% of voters, subject to certain accountability requirements and additional restrictions.

The District may also enter into long-term leases and/or participate in the sale of certificates of participation or lease revenue bonds for public facilities, property, and equipment.

C. Lease/Equipment Financing: Lease-purchase obligations or appropriation leases are a routine and
appropriate means of financing capital equipment and certain capital facilities. However, lease obligations may impact on budget flexibility.

D. Use of General Obligation Bonds: A significant portion of the District’s capital projects are projected to be funded by GO Bond proceeds. Projects financed by the GO Bonds will be determined by the constraints of applicable law and the project list approved by voters.

IV

Relationship of Debt to and Integration with District’s Capital Improvement Program or Budget

Section 4.01. Impact on Operating Budget and District Debt Burden

In evaluating financing options for capital projects, both short and long-term debt amortization will be evaluated when considering a debt issuance, along with the potential impact of debt service, and additional costs associated with new projects on the operating budget of the District. The cost of debt issued for major capital repairs or replacements may be judged against the potential cost of delaying such repairs.

Section 4.02. Capital Improvement Program

The Vice Chancellor, Business Services and the facilities staff have responsibility for the planning and management of the District’s capital improvement program subject to review and approval by the Board of Trustees. Staff will, as appropriate, supplement and revise any applicable facilities master plan in keeping with the District’s current needs for the acquisition, development and/or improvement of District’s real estate and facilities. Such plans may include a summary of the estimated cost of each project, schedules for the projects, the expected quarterly cash requirements, and annual appropriations, in order for the projects to be completed.

Section 4.03. Refunding and Restructuring Policy

A. Considerations for Refunding.

1. District’s Best Interest. Whenever deemed to be in the best interest of the District, the District shall consider refunding or restructuring outstanding debt if it will be financially advantageous or beneficial for debt repayment and/or structuring flexibility.

2. Net Present Value Analysis. The District shall review a net present value analysis of any proposed refunding in order to make a determination regarding the cost-effectiveness of the proposed refunding.

3. Maximize Expected Net Savings. The District shall time the refinancing of debt to maximize the District’s expected net savings over the life of the debt.

4. Comply with Existing Legal Requirements. The refunding of any existing debt shall comply with all applicable State and Federal laws governing such issuance.

V

Policy Goals Related to District’s Planning Goals and Objectives

In following this Policy, the District shall pursue the following goals:

1. The District shall strive to fund capital improvements from voter-approved GO Bond issues to preserve the availability of its General Fund for District operating purposes and other purposes that
cannot be funded by such bond issues.

2. To the extent applicable, the District shall endeavor to attain the best possible credit rating for each debt issue in order to reduce interest costs, within the context of preserving financial flexibility and meeting capital funding requirements.

3. The District shall take all practical precautions and proactive measures to avoid any financial decision that will negatively impact current credit ratings on existing or future debt issues.

4. The District shall, with respect to GO Bonds, remain mindful of its statutory debt limit in relation to assessed value growth within the school district and the tax burden needed to meet long-term capital requirements.

5. The District shall consider market conditions and District cash flows when timing the issuance of debt.

6. The District shall determine the amortization (maturity) schedule which will fit best within the overall debt structure of the District at the time the new debt is issued.

7. The District shall match the term of the issue to the useful lives of assets funded by that issue whenever practicable and economical, while considering repair and replacement costs of those assets to be incurred in future.

8. The District shall, when issuing debt, assess financial alternatives to include new and innovative financing approaches, including whenever feasible, categorical grants, revolving loans or other State/federal aid, so as to minimize the encroachment on the District’s General Fund.

9. The District shall, when planning for the sizing and timing of debt issuance, consider its ability to expend the funds obtained in a timely, efficient and economical manner.

VI

Internal Control Procedures for Issuance of Debt
to Ensure Intended Use of Proceeds

Section 6.01. Structure of Debt Issues

A. Maturity of Debt: The duration of a debt issue shall be consistent, to the extent possible, with the economic or useful life of the improvement or asset that the issue is financing. In addition, the average life of tax-exempt financing shall not exceed 120% of the average life of the assets being financed. The District shall also consider the overall impact of the current and future debt burden of the financing when determining the duration of the debt issue.

B. Debt Structure:

1. GO Bonds:
   a. New Money Bond Issuances: For tax-exempt new money bond issuances, the District shall size the bond issuance consistent with the “spend-down” requirements of the Internal Revenue Code and, for all new money bond issuance, within any limits approved by the District’s voters. To the extent possible, the District will also consider credit issues, market factors (e.g. bank qualification) and tax law when sizing the District’s bond issuance.

b. Refunding Bond Issuances: The sizing of refunding bonds will be determined by the amount of money that will be required to cover the principal of, accrued interest (if any) on, and redemption

premium for the bonds to be defeased on the call date and to cover appropriate financing costs.

c. Maximum Maturity: All bonds issued by the District shall mature within the limits set forth in applicable provisions of the Education Code or the Government Code. The final maturity of tax-exempt bonds will also be limited to the average useful life of the assets financed or as otherwise required by tax law.

d. Taxable Bonds: Taxable bonds shall be considered for funding projects which do not satisfy the "spend-down" requirements of the Internal Revenue Code.

2. Lease-Purchase Obligations: The final maturity of equipment or real property lease obligations will be limited to the useful life of the assets to be financed.

C. Debt Service Structure: The District shall design the financing schedule and repayment of debt so as to take best advantage of market conditions, provide flexibility, and, as practical, to recapture or maximize its debt capacity for future use.

Section 6.02. Use of Proceeds

The District shall be vigilant in using bond proceeds in accordance with the stated purposes at the time such debt was incurred. In furtherance of the policy, and in connection with the issuance of all GO Bonds:

1. As required by Government Code Section 53410, the District shall only use GO Bond proceeds for the purposes approved by the District’s voters; and

2. The Vice Chancellor, Business Services shall have the responsibility, no less often than annually, to provide to the District’s Board of Trustees a written report which shall contain at least the following information:

   The amount of the debt proceeds received and expended during the applicable reporting period; and

   The status of the acquisition, construction or financing of the school facility projects, as identified in any applicable bond measure, with the proceeds of the debt.

These reports may be combined with other periodic reports which include the same information, including but not limited to, periodic reports made to the California Debt and Investment Advisory Commission, or continuing disclosure reports or other reports made in connection with the debt. These requirements shall apply only until the earliest of the following: (i) all the debt is redeemed or defeased, but if the debt is refunded, such provisions shall apply until all such refunding bonds are redeemed or defeased, or (ii) all proceeds of the debt, or any investment earnings thereon, are fully expended.

3. The District shall post on the District website the Annual Report of the District’s Independent Bond Oversicht Committee which has been given the responsibility to review the expenditure of GO Bond proceeds to assure the community that all GO Bond funds have been used for the construction, renovation, repair, furnishing and equipping of school facilities, and not used for teacher or administrator salaries or other operating expenses.

4. The District shall hire an independent auditor to perform an annual independent financial and performance audit of the expenditure of GO Bond proceeds, and to post such audits on the District website.

1) **Why are we conducting a district-wide brand assessment?**

On January 19, 2017, the SBCCD Board of Trustees approved the following:

- 2017-2022 Districtwide Support Services Strategic Plan
- 2017 Crafton Hills College Comprehensive Master Plan
- 2017 San Bernardino Valley College Comprehensive Plan

Each plan was developed with input from faculty, staff, students and community members, and sets the strategic direction for the next five years for how SBCCD will advance its mission of increasing access to affordable, high-quality higher education to Inland Southern California.

**Strengthening the college’s profile and reputation was identified as a priority to attract and maintain students, talented faculty and staff, and enhance business and community partnerships.**

(Continued, next page)
(Continued: Why is SBCCD conducting a district-wide brand assessment)

San Bernardino Community College District

Strategic Direction Goal 2: Enrollment and access
- Enhance the public image of the San Bernardino Community College District (Objective 2.3). Assess the District’s public image, develop, and implement a plan on the assessment’s results.
- Increase awareness of San Bernardino Valley College and Crafton Hills College as viable higher education options (Objective 2.4)

Strategic Direction 3: Partnerships of Strategic Importance
- Enhance existing and secure new government and community partnerships to increase funding for improving student success and increasing student access (Objective 3.4)
- Enhance SBCCD’s value to the communities it serves.

San Bernardino Valley College

Strategic Direction 3: Improve communication, culture and climate
- Expand and enhance local business and community awareness of the college.
- Build community recognition and networks by capitalizing on the college’s community roots.

Crafton Hills College

Strategic Direction 5: Enhance value to the surrounding community.
- Be recognized as the college of choice in the communities we serve.
- Expand the reputation of Crafton Hills College as an essential partner and valued asset.
- Distinguish Crafton Hills College as a respected resource for local employers and the workplace.

2) Why is strengthening our district-wide brand important?

1. We compete with public and private colleges and trade schools to attract students (enrollment) and talented instructors.

2. We compete with hundreds of nonprofits for resources such as staffing, funding, public attention, philanthropic contributions, legislative support, awards and recognitions, and positive news media coverage.

3. Our brand (the unique promise we make) is how we set ourselves apart from those competitors.

4. When the brand and public opinion of our colleges is strong, the diploma/certificate we award our students is strong and it makes them more competitive in the workforce.
3) What are the goals and objectives District-Wide Brand Assessment

To evaluate the strengths and areas of improvement of our district-wide brand to determine the public’s perception of the institution as a whole, as well as its individual entities, and use this assessment to help SBCCD, SBVC, CHC, EDCT, KVCR establish a cohesive visual/verbal brand that:

1) Distinguishes it as a vital community resource and the region’s leading provider of affordable and accessible higher education,

2) Attracts and maintains a diverse student population and talented faculty and staff, and

3) Reinforces our college’s legitimacy as a regional educational institution that positively impacts the 20 cities and unincorporated communities we serve.

4) What will the district-wide brand assessment entail?

With the support of the Board of Trustees and Chancellor Baron, the Task Force is partnering with the public affairs firm Cerrell Associates to solicit input from students, faculty, staff, alumni and community stakeholders to assess the district and college’s public image. The assessment is taking into consideration public perceptions of the SBCCD District Office, San Bernardino Valley College, Crafton Hills College, Economic Development & Corporate Training and KVCR TV/FM.

1. Stakeholder Engagement
   Through direct engagement with students, faculty, staff, alumni and community stakeholders, the Task Force is working with Cerrell Associates to facilitate focus groups, consultations and online surveys to gather feedback and understand how external audiences view our colleges and its place in the community, as well as potentially test new brand themes.

2. Strengths, Weaknesses, Opportunities and Threats (S.W.O.T.) Analysis
   The review would assess the college community’s (SBCCD, SBVC, CHC, EDCT, KVCR) main communications channels – electronic communications, internal communications, direct community interactions – to ensure consistent messages are being conveyed to all audiences. The analysis would also identify gaps in external engagement activities and will ultimately help determine the appropriate actions for creating a more vibrant external communications program.

3. Recommendations to Strengthen the Brand
   Once the S.W.O.T. analysis and stakeholder engagement activities are completed, Cerrell Associates will deliver a written report to the Task Force, Chancellor and Board of Trustees detailing the assessment’s findings. The forward-looking report will include recommended steps on how to strengthen and integrate the district-wide brand through long-term strategic messaging and a graphic identity system.
5) By the Numbers: Overall input gathered from students, faculty, staff, and community stakeholders (As of 11/8/2017):

1,551: Number of SBVC, CHC, EDCT, KVCR, SBCCD faculty and staff who have received an email invitation to complete an online survey to share their thoughts and opinions on what is working and not working with our district-wide brand image. (Sent November 2, 2017).
