RECOMMENDATION

It is recommended that the Board of Trustees accept for first read the Proposed Human Resources Reorganization Plan effective March 1, 2018.

OVERVIEW

On April 27, 2017, the Board of Trustees approved a one-year pilot in which Human Resources was placed under the leadership of the Vice Chancellor of Business & Fiscal Services. Based on internal discussions, staff believes that Human Resources and the District as a whole have benefited from this new approach, and a recommendation is now being made to make the changes permanent.

ANALYSIS

The newly proposed organization includes the elimination of two positions, the addition of two positions, and the reclassification of seven positions. This will result in an approximate break-even cost for the District. Benefits to be realized from this approach include:

- The opportunity for existing staff to apply for any new positions.
- Continued leadership for the implementation of the new human resources software system.
- Continued centralization, leadership, and consistency for the hiring processes.
- Continued centralization, leadership, and consistency for the on-boarding of new employees.
- Continued centralization, leadership, and consistency in the interpretation of bargaining agreements, board policies, administrative procedures, laws and regulations.
- Centralization, increased leadership and consistency for internal investigations.
- Centralization, increased leadership and consistency for compensation studies.
- A continued succession plan for the Human Resources department.

In order to maintain transparency and continue open communication with the colleges, the proposed reorganization plan will be shared with District Assembly and the District Budget Committee. It is anticipated that a second read and request for final approval will be presented to the Board of Trustees during its April 12, 2018 meeting.

INSTITUTIONAL VALUES

III. Resource Management for Efficiency, Effectiveness, and Excellence

FINANCIAL IMPLICATIONS

The reorganization will be a break-even and therefore does not have any financial implications.
