POWER OUTAGE SAFETY TIPS

- Avoid power lines and use electric tools and appliances safely to prevent electrical shock.
- Wear layers of clothing, which help to keep in body heat.
- Heat-related illness.
- In hot weather, stay cool and drink plenty of fluids to prevent heat-related illness.
- Check with local authorities to be sure your water is safe.
- If the power is out longer than two hours, throw away food that isn’t refrigerated or frozen.
- Be sure washers, grills, and similar items outdoors only.
- To prevent carbon monoxide poisoning, use generators, pressure washers, etc. ONLY outdoors.

For more power outage safety information log on to:

On April 27th, Crafton Hills College experienced a power outage, which affected the entire campus community. This reminds us of how familiar we should be with our emergency procedures if an event like this occurs.

To prevent carbon monoxide poisoning, use generators, pressure washers, etc. ONLY outdoors.

REMEMBER - SAFETY FIRST, LAST & ALWAYS!
About Us

Environmental Health and Safety (EHS) is responsible for development, oversight and management of environmental health and safety programs that protect the environment, provide safe and healthy conditions for work and study and compliance with applicable local, state and federal regulations.

EHS provides safety program development, educational programs, technical assistance, and health and safety services to the campus communities and district offices.

EHS also functions as a consultant to the chancellor, vice chancellors, presidents, deans, directors and heads of academic and administrative units, in addition to staff members and students in all areas of environmental health and safety.

EHS provides health and safety investigations as necessary.

The San Bernardino Community College District Environmental Health & Safety is located at the District Offices at 114 S. Del Rosa Drive, San Bernardino, California 92408 and can be reached at 909-382-4070 or by email at wfields@sbccd.cc.ca.us
