Health and Wellness

Employees eligible for healthcare coverage under the Affordable Care Act ("Obamacare") can enroll during open enrollment for 2015 health insurance plans through Covered California. Open enrollment begins November 15, 2014, and ends February 15, 2015. Covered California also offers a special-enrollment option for those who experience a life-changing event (such as getting married, having a child or moving) and need to enroll outside of open enrollment. Medi-Cal enrollment for those with qualifying incomes is available year-round. Consumers can enroll for health coverage online, by phone or in person with free assistance.

TB Awareness

TB Requirement?
California Education Code, Section 87408.6, states no person shall be initially employed by a community college district in an academic or classified position unless the person has submitted to an examination within the past 60 days to determine that he or she is free of active tuberculosis by a physician and surgeon or a physician assistant. Employees are required to undergo the examination at least once every four (4) years.

Do you have a current TB clearance?
Current SBCCD employees who have an expired TB clearance will receive a notification on their respective check stubs. To ensure compliance with the California Education Code requirement, the District has contracted with two (2) medical facilities to administer either intradermal tuberculin test or X-ray of the lungs.

TB Testing Facility
Fox Occupational Medical Center – 1375 Camino Real, Ste #130, San Bernardino, CA 92408 909-884-1500
HealthPointe – 290 N. 10th St. Ste#100, Colton, CA 92324 909-264-2500

EMPLOYEES GOING TO THE FACILITY MUST CONTACT HR FOR AUTHORIZATION VOUCHER.
Quitting Smoking: John’s Story

When John Peterson is behind the wheel of his race car, he’s doing more than just trying to win a race. With every lap, he’s passing on a message to racing fans about not smoking.

John is a race car driver, and his team is Smoke-Free 83. With each lap, fans see John’s car covered with information about quitting tobacco, including a nationwide 1-800 number they can call.

Off the track, John travels with his car and talks to fifth graders about why they shouldn’t start using tobacco. The kids hear his message, sit in the race car, and even sign their names on the car.

John knows firsthand how hard it is to quit after you start using tobacco. He smoked and chewed tobacco for 16 years before he was able to quit for good.

Lessons to learn

In the quit-smoking class, John learned about the destructive path that tobacco and nicotine took while traveling through his body to his brain. “I used to think tobacco only affected my lungs and my lips. I didn't realize that all of those chemicals are flowing through the rest of your body to reach your brain.”

Strength from others

Hearing other peoples’ success stories encouraged him. His classmates told him that before they took the class, they never thought they'd quit either. Hearing their stories gave John the confidence and strength to go for his goal to quit smoking.

All the effort John put into getting ready to quit helped him stay focused on his goal and not give in to the temptation to smoke. “The way I look at it is that it took all of this effort,” John says. “If I blow it by taking a cigarette because of a craving, I'd have to start all over again. It was a big incentive to not light up.”

For more information, see the topic Quitting Smoking.
